SUMMARY

Motivated Computer Technology diploma graduate with hands-on experience in software development, process automation, web application development, and AI-powered solutions. Completed industrial training at Indian Railways, where operational workflows were automated using Google Apps Script. Skilled in developing full-stack web applications, automation systems, and AI-based solutions. Strong problem-solving abilities demonstrated through state-level and national-level technical competitions, hackathons, and project development.

EDUCATION

Vishwakarma Institute of Technology, Pune
BTech in Computer Engineering

Aug 2026 – Present

Government Polytechnic, Solapur

July 2023 – May 2026

Diploma in Computer Technology, Relevant Coursework: Data Structures, Database Management Systems, Software Engineering, Web Development, Computer Networks, Operating Systems

EXPERIENCE

Industrial Trainee

June 2025 – August 2025

Indian Railways – DRM Office, Solapur

Industrial Training

- Automated railway operational workflows using Google Apps Script.
- Developed and enhanced B-Form and Terminal Position Sheet systems used for train movement tracking.
- Worked with real-time railway operational data and reporting systems.
- Improved efficiency by reducing manual data processing and repetitive tasks.
- Gained practical exposure to railway operations, workflow automation, and enterprise-level process management.

Team Participant

TechnoKrest 2K26

Hackathon Experience

- Developed an AI-based attendance automation system using face recognition technology.
- Applied computer vision concepts to automate attendance management.
- Collaborated effectively within a multidisciplinary team under strict competition timelines.
- Gained practical experience in rapid prototyping and solution development.

PROJECTS

Railway Operations Automation System | Google Apps Script | Automation

- Developed automation solutions for railway operational documents and reporting.
- Implemented automated data processing and synchronization workflows.
- Reduced manual effort and improved operational accuracy.
- Designed systems suitable for day-to-day railway operations.

Government Polytechnic Solapur Website | React | Supabase | PostgreSQL | Directus CMS

- Contributed to development of the official institute website.
- Implemented responsive user interfaces and content management functionality.
- Worked with modern frontend technologies and database-driven architecture.
- Participated in collaborative development using Git and version control.

AI Content Detector | Python | Machine Learning | NLP

- Developed an AI-assisted content detection system.
- Designed models for identifying AI-generated content patterns.
- Explored machine learning and natural language processing techniques.
- Improved content analysis accuracy through experimentation and evaluation.

Tessera | Local-First AI Testing IDE

- Developed a desktop IDE that converts static code analysis into test plans, test cases, defect reports, and bug tickets.
- Implemented Tree-sitter AST analysis with SQLite-based local state management.
- Integrated a local Ollama model for AI-powered generation without cloud dependency.
- Ensured complete privacy with no telemetry or external API calls.

GPS Mobile Application | Application Development

- Built a digital platform for improving student accessibility to institute resources.
- Designed intuitive navigation and responsive user experience.
- Integrated multiple utility features into a unified interface.

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, JavaScript, SQL

Web Technologies: React.js, HTML5, CSS3, Tailwind CSS, Node.js

Database & Backend: PostgreSQL, Supabase, MySQL

Tools & Platforms: Git, GitHub, Google Apps Script, Linux, VS Code

Technologies: REST APIs, Automation Systems, Face Recognition, AI Applications, Responsive Web Design

Professional Skills: Problem Solving, Team Collaboration, Quick Learning, Technical Documentation, Software Development, Process Automation, Communication Skills, Adaptability

ACHIEVEMENTS

Technical Competitions 1st Prize – Paper Presentation Competition, Shri Siddheshwar Women's Polytechnic, Solapur (State Level) 2nd Prize – Paper Presentation Competition, National Level Technical Symposium, Bharat Ratna Indira Gandhi College of Engineering & Polytechnic 2nd Prize – Aptitude Test Competition, D.H.B. Soni College, Solapur Participation - Technical Paper Presentation – AISSMS Polytechnic, Pune (State Level) - Technical Quiz – SPM Polytechnic Kumathe, Solapur (State Level) - Technical Quiz – Bharat Ratna Indira Gandhi College of Engineering & Polytechnic (State Level) - C Programming Competition – H.N. College of Commerce (District Level)

SPORTS & LEADERSHIP

Football: Zonal Tournament (C Zone) – SVERI's College of Engineering, Pandharpur Basketball: Zonal Tournament (C Zone) – Brahmdevdada Mane Institute of Technology, Solapur Demonstrated teamwork, discipline, leadership, and decision-making abilities through competitive sports participation.

CAREER OBJECTIVE

To begin my professional career in software development and technology-driven organizations where I can apply my technical skills, contribute to innovative projects, and continuously grow as a software engineer while delivering impactful solutions.
